NATIONAL ASSOCIATION OF SUMMER SESSIONS

Institutional Membership List

July 1, 1973 — June 30, 1974

As of November 9, 1973

1. Abilene Christian College
   Abilene, Texas 79601
2. Adams State College*
   Alamosa, Colorado 81101
3. Adelphi University*
   Garden City, Long Island
   New York 11530
4. The University of Akron*
   302 East Buchtel Avenue
   Akron, Ohio 44304
5. Alaska, University of
   Division of Statewide Services
   College, Alaska 99701
6. Albright College
   Reading, Pennsylvania 19604
7. Alfred University
   Alfred, New York 14802
8. American International College
   170 Wilbraham Road
   Springfield, Massachusetts 01109
9. The American University*
   303 Ashbury Building
   Washington, D.C. 20016
10. Anderson College
    Anderson, Indiana 46011
11. Appalachian State University*
    Boone, North Carolina 28607
12. Arizona State University
    Tempe, Arizona 85281
13. Arizona, University of*
    Tucson, Arizona 85721
14. Arkansas State University
    State University, Arkansas 72467
15. Arkansas, University of*
    Fayetteville, Arkansas 72701
16. Arkansas, University of
    53rd and University Avenue
    Little Rock, Arkansas 72204
17. Ashland College
    Ashland, Ohio 44805
18. Assumption College*
    500 Salisbury Street
    Worcester, Massachusetts 01609
19. Atlantic Community College
    Mays Landing, New Jersey 08330
20. Augustana College
    Rock Island, Illinois 61201
21. Babson College
    Babson Park, Massachusetts 02157
22. Ball State University*
    Muncie, Indiana 47306
23. Baylor University
    Waco, Texas 76703
24. Bellarmine College*
    2000 Norris Place
    Louisville, Kentucky 40205
25. Benedict College
    Harden and Blanding Streets
    Columbia, South Carolina 29204
26. Bentley College
    Beaver and Forest Streets
    Waltham, Massachusetts 02154
27. Black Hills State College
    Spearfish, South Dakota 57783
28. Bloomfield College
    Bloomfield, New Jersey 07003
29. Boise State College
    1907 Campus Drive
    Boise, Idaho 83707
30. Boston College*
    Chestnut Hill, Massachusetts 02167
31. Bowling Green State University
    Bowling Green, Ohio 45402
32. Brenau College
    Gainesville, Georgia 30501
33. Bridgeport, University of
    Bridgeport, Connecticut 06602
34. Brigham Young University*
    Provo, Utah 84601
35. Bristol Community College
    64 Durfee Street
    Fall River, Massachusetts 02720
36. British Columbia, University of
    Vancouver, Canada
37. Bronx Community College*
    120 East 184th Street
    Bronx, New York 10468
38. Brown University
    Waterman Street
    Providence, Rhode Island 02912
39. Bryant College
    Smithfield, Rhode Island 02917
40. Caldwell College
    Caldwell, New Jersey 07006
41. Calgary, The University of Calgary, Alberta, Canada
42. California State College - San Bernardino
5500 State College Parkway
San Bernardino, California 92407
43. California State College - Sonoma
1801 East Cotati Avenue
Rohnert Park, California 94928
44. California State Polytechnic College
San Luis Obispo, California 93401
45. California State University - Chico
Chico, California 95926
46. California State University - Fresno
Fresno, California 93726
47. California State University - Hayward
25800 Hillary Street
Hayward, California 94542
48. California State University - Los Angeles
5151 State University Drive
Los Angeles, California 90032
49. California State University - Northridge
18111 Nordhoff Street
Northridge, California 91324
50. California State University - Sacramento
600 J Street
Sacramento, California 95819
51. California State University - San Diego
5402 College Avenue
San Diego, California 92115
52. California State University - San Francisco
1600 Holloway Avenue
San Francisco, California 94132
53. California State University - San Jose
145 South Seventh Street
San Jose, California 95114
54. California, University of Irvine, California 92664
55. California, University of Los Angeles
90024
56. California, University of Riverside
92502
57. California - San Diego, University of La Jolla, California 92037
58. Canisius College
2001 Main Street
Buffalo, New York 14208
59. Carthage College
Kenosha, Wisconsin 53140
60. The Catholic University of America*
Washington, D.C. 20017
61. Centenary College of Louisiana
Centenary Station
Shreveport, Louisiana 71104
62. Central Connecticut State College
1615 Stanley Street
New Britain, Connecticut 06050
63. Central Washington State College
Ellensburg, Washington 98926
64. Central YMCA Community College
211 West Sacker Drive
Chicago, Illinois 60606
65. Centre College of Kentucky
West Walnut Street
Danville, Kentucky 40422
66. Chapman College
333 North Glassell Street
Orange, California 92666
67. College of Charleston
Charleston, South Carolina 29401
68. Cincinnati, University of 429 Pharmacy Building
Cincinnati, Ohio 45221
69. Clatsop Community College
16th and Jerome
Astoria, Oregon 97103
70. Clemson University
Clemson, South Carolina 29631
71. Colby College
Waterville, Maine 04901
72. Colby College - New Hampshire
New London, New Hampshire 03257
73. The Colorado College
Colorado Springs, Colorado 80903
74. Colorado State University*
Fort Collins, Colorado 80521
75. Colorado Women's College
1800 Pontiac Street
Denver, Colorado 80220
76. Community College of Baltimore*
2901 Liberty Heights Avenue
Baltimore, Maryland 21215
77. Concordia Teachers College*
800 North Columbia Avenue
Seward, Nebraska 68434
78. Connecticut, The University of*
Storrs, Connecticut 06268
79. Cornell University
105 Day Hall
Ithaca, New York 14850
80. Creighton University
2500 California Street
Omaha, Nebraska 68131

TENTH ANNUAL CONFERENCE
NATIONAL ASSOCIATION OF SUMMER SESSIONS

November 7—9, 1973
Statler Hilton
Boston, Massachusetts

THEME: More of the Same, or New Directions?

Host Institution: Boston College

WEDNESDAY, NOVEMBER 7, 1973

8:30 a.m. Executive Committee Breakfast
9:00 a.m. - 3:00 p.m. Registration
10:00 a.m. FIRST GENERAL SESSION
   Topic: Problems of Our Profession: The Need To Diversify
   Speaker: Joseph Pettit, Georgetown University
   Chairman: Harriet Darrow, Indiana State University
12:00 Noon Tenth Anniversary Luncheon
   Welcome: Rev. Charles F. Donovan, S.J., Senior Vice President and Dean of Faculties, Boston College
1:30 p.m. Announcements: Rev. George R. Fuir, S.J., Boston College
1:45 p.m. Sightseeing Tours
   Tour A — Freedom Train
   Tour B — Concord and Lexington: Paul Revere’s Ride
5:00 p.m. Committee Meetings

REGIONAL VICE PRESIDENTS: Meet in Headquarters Suite with President Darrow
AUDIT: Marjorie Johansen, University of California
CONFERENCE SITE: Claud Green, Clemson University
GOVERNMENTAL RELATIONS AND NEWSLETTER: Joseph Pettit, Georgetown University
MEMBERSHIP COMMITTEE: Stuart H. Manning, The University of Connecticut
NOMINATING: Charles Noyes, University of Mississippi
RESEARCH: Les Coyne, Indiana University
RESOLUTIONS: Mary K. Ludwig, University of Southern California
SPECIAL INTEREST SESSION: Summer Religion and Theology Programs
Co-Chairmen: D. Campbell Wyckoff, Princeton Theological Seminary and Kenneth R. Fredgren, Georgetown University

8:30 p.m. Workshop for New Summer Session Directors
Chairman: Richard Dankworth, University of Nevada

THURSDAY, NOVEMBER 8, 1973

8:30 a.m. Continued Registration

9:00 a.m. SECOND GENERAL SESSION
Topic: The Continuing Education Unit—is it relevant to Summer Sessions?
Speaker: Grover Andrews, Associate Director, Southern Association of Colleges and Schools
Chairman: Edward F. Overton, University of Richmond

10:15 a.m. Break

10:45 a.m. Concurrent Workshops
Group 1: Monetary Problems, Budget and Finance
Chairman: N. Lee Dunham, Baylor University
Consultant: Raymond T. Holmes, Vice President for Finance, Virginia Commonwealth University
Group 2: Declining Enrollment—What to do about it
Chairman: George Cole, Southern Connecticut State College
Consultants: Bruce McCart, Augustana College; Art Brissette, Sacred Heart University; Mary K. Ludwig, University of Southern California
Group 3: Serving Minority Students in Summer
Chairman: J. Niel Armstrong, North Carolina Agricultural and Technical State University

Group 7: Nuts and Bolts

Chairman: Anne Scheerer, Creighton University

Resource Person: Les Coyne, Indiana University

Group 8: Repeat of Workshop for New Summer Session Directors

12:00 Noon Lunch

2:00 - 3:15 p.m. Concurrent Workshops (Repeat of above except Group 8)

2:00 p.m. Spouses' Tour

5:30 p.m. Social Hour

7:00 p.m. Annual Conference Banquet

Chairman: Rev. George R. Fuir, S.J., Boston College

Entertainment: Boston College Chorale under direction of C. Alexander Peloquin

FRIDAY, NOVEMBER 9, 1973

9:00 a.m. THIRD GENERAL SESSION

NASS BUSINESS SESSION and Election of Officers, Harriet Darrow, Indiana State University, President of NASS, Presiding

12:00 Noon Luncheon for Administrative Council
"A Problem of Our Profession: A Need For Diversity"

By Joseph Pettit
Dean, School for Summer and Continuing Education
Georgetown University, Washington, D.C.

Thank you, Madame President. It is a real honor to stand before you, my fellow colleagues, to present the Keynote Address of this our Tenth Annual Conference. In inviting me to make this address, our President-Elect, John Mapp, revealed both the soul of a gambler and the trust of a friend. For the sake of all of us, I hope I will be able to justify, at least in a small way, that risk and confidence.

I would like to talk to you today about the need for diversity in our institutions and educational programs. By striving for this diversity, I believe we can better fulfill our roles as Summer Session administrators.

On a personal basis, it is this belief in individuality that prompts me with my Colorado background to walk the Georgetown campus and even to enter proper Boston in a cowboy hat. Sometimes, however, one's nature will define the extent to which one can be different. As an example, earlier this fall, I found myself awakened in the middle of the night with a pain that seemed to indicate appendicitis. After an encounter with a sleepy Emergency Room staff, my suspicions were confirmed. Later that day while I had my appendix removed, a neighbor lady went to another hospital and had a baby girl. Soon the news of Kathleen's baby sister was known throughout the neighborhood. When my son, Joey, encountered all of this talk, he didn't want to be outdone, so he told everyone that his daddy was also in the hospital. At this, his friend Paul wanted to know "Will he get a baby girl, too?"

Before I begin the main points of this talk, I would like to propose that we not conduct this session in the typical way with members of the audience asking questions of the speaker. Since you are all at least as capable as I am of giving this talk, I hope we can use the second part of this session to dialogue on the issues that will be raised. Many of you have experience and insights that would be helpful to all of us.
My discussion will proceed from a consideration of the need for diversity in education to an examination of our role and experiences as Summer Session administrators in the cultivation and pruning of this diversity. In doing so, I will focus on our responsibilities for program planning, design and evaluation.

The first question we might ask is what should education consist of and how does this affect the institutions and programs with which we are associated?

A few weeks ago, a conference was held in New York to discuss the proper curriculum for a liberally educated individual. Reports on the program indicate that the opinions expressed were as diverse as the personalities of those in attendance, including such figures as Sidney Hook of Columbia and Nathan Glaser of Harvard. Perhaps the conference should have opened with the following quotation from a past observer of education:

"At present, opinion is divided about the subjects of education. People do not take the same position about what should be learned by the young, either with a view to excellence or with a view to the best life; nor is it clear whether their studies should be directed mainly to the intellectual or to moral character . . . Each kind of study gets some support. Even those that make for excellence there is no agreement, for men do not honor the same excellence and so naturally they differ about the proper training for it."

Those observations about the need for diversity in education were made many, many years ago by a philosopher known to all of us — Aristotle.

If from ancient times to the present there has been no agreement concerning what constitutes a proper curriculum or approach to education, why do I express concern today? Indeed, a recent Carnegie report observed that:

"Higher education in America has been marked by greater diversity than in any other system in the world. Its amazing variety reflects both the historical origins of colleges in many different private and public endeavors and also the continuing pluralism of American society. This diversity has been one of the greatest strengths of higher education; a major source of much of its dynamism."

My concern arises out of a recognition, shared by many, that this diversity is endangered by a movement towards uniformity.

As the same report stated so eloquently, "We believe that this process of homogenization should be reversed, that institutions should seek to identify their own goals and to fulfill them — rather than merely trying to match the accomplishments of others, that each should seek to perfect its own separate institutional personality, that each should strive to excel according to its own standards, and that different is better. The need for more diversity, rather than less, flows from the more varied backgrounds of the
students now entering college and their more varied interests once in college, from the new occupations constantly being created and the new training necessary for them, from the new or at least newly visible problems of society, and from the new emphasis on quality of life and one's independent choice of life-style. The trend toward homogenization can lead to dull conformity, to the meanest kind of petty competition, and to less meaningful service to students and society as each institution tries to climb higher up a single greasy pole of success.

Individuality, uniqueness and diversity, then, should be the norm rather than the exception in education. As Summer Session Deans and Directors, we can play an important part in highlighting the distinctive character and unique mission of our individual college or university. While our summer courses are often similar to those offered during the regular year, we can go further in the summer by conducting workshops, special courses and study programs both on campus and in other local, national or international locations.

These special courses and programs can not only highlight the diversity among our institutions, but they can also provide internal variety. The most obvious way in which our courses and programs differ from those of the regular year is in schedule and format. Before I consider this second type of diversity, let us first take a look at the several functions we perform and how these might affect the diversity of our offerings.

Unlike our fellow Deans, our work in providing educational opportunities in the summer has an annual life-cycle; thus giving us a new chance, a fresh start each year. For me, this annual sequence of design, promotion, experimentation and evaluation is a source of creative strength and satisfaction.

While the following recitation of our annual duties will be quite familiar to you, it will be helpful for me in defining our crucial role in reform and innovation. To begin with, for most of us, the fall term is devoted to course and program design. We review the experience of the previous summer and quickly meet with the departmental chairmen, fellow deans and sometimes with individual faculty members. Once this planning process has shaken into place, our next job is to communicate our courses and programs to potential students by way of attractive bulletins and flyers. Frequently, advertising in newspapers, magazines, radio and television is utilized. This promotional effort must be backed up by prompt handling of inquiries, simplified application and registration procedures, and clearly stated schedules and policies. Likewise, friendly and competent assistance with all problems from inquiries through the issuance of grade reports must supplement good courses and programs to make for a pleasant and rewarding experience for the student. As every good businessman knows, "A satisfied customer is your best advertisement."

Of course, this brief account of the activities of a Summer Session administrator and his or her staff leaves out many of the other day-to-day
details that must be done. It does, however, describe a role that I have referred to for several years as that of an "educational entrepreneur." Far from being a derogatory phrase, I believe we should be proud to be so described. As you will see later, Frank Newman of the Newman Reports also believes that educational entrepreneurs play an important role in the reform of our colleges and universities.

As we think about this description of our role, I would like to concentrate on the educational side by examining some innovations that are appearing with increasing frequency in our summer sessions. These will form the background for reviewing the criteria and evaluation procedures we should use to insure educational quality in our courses and programs.

When I started in summer session work almost twelve years ago, there were basically two models for summer sessions, either a one 8-week session, or two 6-week sessions. Even then there seemed to be much anguish on the part of certain faculty members in fitting everything they "taught" during the regular year into the shorter summer term. Since then the models of the 6-week and 8-week terms have been joined by a dozen new schedules. In his address this year to the American Association of Collegiate Registrars and Admissions Officers, our distinguished Past-President, Willard Edwards, described the situation in the following graphic terms:

"Pressures for short-term courses at convenient times in convenient locations are growing. —The result of this continuing pressure has been the development of a summer schedule of four 3-week sessions with overlays of six, nine and twelve weeks, and subdivisions of one and two weeks. Or, in some instances, of three 4-week sessions with overlays of eight and twelve weeks and subdivisions of one, two and three weeks. The pressures for weekend degrees has resulted in patterns of three Saturday meetings followed by two Saturdays off, and two Saturday-Sunday meetings followed by two weekends off."

At this point, it is interesting to ask ourselves if NASS through its national and regional meetings is somewhat responsible for this proliferation of models. Is one of the reasons you attend these meetings the same as mine? — Namely, to pick the brains of your colleagues and use some of their ideas back home? In Atlanta, two years ago, I was talking to my friend John Shisler about a program he had for teachers where they were sent reading and writing assignments several weeks before a five-day workshop. Those who completed both the work prior to the conference and during it were granted three semester credits. I took that idea back with me to Washington and with five faculty members, adapted it for undergraduate students in a one-week session that takes place just prior to the fall semester. Last year, I returned home to organize a three-week session beginning in May as a result of the discussions of this group at our Annual Meeting in St. Louis. The response of students and faculty members, both before and after these courses, has been very favorable. As a result, our summer at Georgetown begins in May with the three-week term, continues in June
with the first of two five-week sessions and a special overlay session begins in late June which runs from six to eight weeks, depending upon the individual course. Our summer ends in late August with the special one-week session. These regular sessions are supplemented, of course, by workshops on campus and several overseas programs. Our slogan was "Summer Sessions — The Change of Pace Semester."

Have we been irresponsible in tampering with traditional schedules and approaches to teaching in making these changes? This is not a rhetorical question but one that goes to the heart of our responsibilities as educational entrepreneurs. For this reason, I would like to focus the remainder of my talk on the criteria we should use in reviewing new courses, as well as the thoroughness with which we should evaluate all of our educational offerings.

As for criteria, what can we say of old rules of thumb which specified only one semester credit per week or that each semester credit should require fifteen hours of classroom contact between the student and teacher. Some fairly scientific studies of learning achievement under a variety of course formats call many of these comfortable and fixed criteria into question. A review of these studies is presented in a recent book by Ohmer Milton entitled Alternatives to the Traditional: How Professors Teach and How Students Learn. It would be worth our time to briefly summarize four studies presented in this book.

Before we examine research into an area as emotionally charged as the proper way "to teach," it would be good to recall a little story attributed to Francis Bacon:

"In the Year of Our Lord 1432, there arose a grievous quarrel among the brethren over the number of teeth in the mouth of a horse. For 13 days the disputation raged without ceasing. All the ancient books and chronicles were fetched out, and wonderful ponderous erudition, such as was never before heard of in this region, was made manifest. At the beginning of the 14th day, a youthful Friar of goodly bearing asked his learned superiors for permission to add a word, and straightforward, to the wonderment of the disputants, whose deep wisdom he sorely vexed, he beseeched them to unbend in a manner coarse and unheard-of, and to look in the open mouth of a horse and find the answer to their questionings. At this, their dignity being grievously hurt, they waxed exceedingly wroth; and joining in a mighty uproar, they flew upon him and smote him hip and thigh, and cast him out forthwith. For, they said, surely Satan hath tempted this bold neophyte to declare unholy and unheard-of ways of finding truth contrary to the teachings of the fathers. After many days of grievous strife, the Dove of Peace sat on the assembly, and they as one man, declaring the problem to be an everlasting mystery because of a grievous dearth of historical and theological evidence thereof, so ordered the same writ down."
Our first look into the horse's mouth concerns a study that pooled the data from ninety-one studies conducted between 1924 and 1965 on the relationship between achievement and instructional arrangements. These studies dealt with courses from accounting through English composition, to the natural and physical sciences. The authors conclude: "These data demonstrate clearly and unequivocably that there is no measurable difference among truly distinctive methods of college instruction when evaluated by student performance on final examinations."

In the second study conducted at Antioch College as an experiment in independent study, reductions in formal class time varied from 30 to 80%. Gains in content understanding were measured with before and after tests, but there were no substantive differences between sections of particular courses taught under different arrangements.

In the early sixties, a third study was conducted at the University of Colorado in a variety of courses and disciplines, whereby the time in class was reduced from three times per week to once a week and, again in terms of content understanding, as measured in a variety of ways, there was no adverse effect.

The fourth study involved 4500 students at Miami University in Ohio who were registered in twenty-three different courses that spanned the curriculum. Three instructional approaches were used — television, lecture and discussion, as well as small, medium and large-sized classes. Milton reported that with respect to acquisition of subject matter, there were essentially no differences among any of the groups for a particular course taught by the different methods.

Another educational researcher, W. J. McKeachie, concluded in his book Research on College Teaching: A Review, published in 1970, that "So far as performance on course examinations is concerned, there is no strong basis for referring one teaching method over another."

Based on this kind of evidence, I, for one, do not believe that there is any single timeframe, schedule or approach to learning that is appropriate to all situations. Different courses, teachers and students require different formats, and modes in order to maximize learning. The traditional semester in which students must string five or six subjects out over a fifteen-week semester, certainly doesn't have the unity and cohesion of a three-week session in which students and faculty concentrate on a single subject. This latter model, however, involves a concentration of effort not required in the lengthier term. Some disciplines and subjects benefit from a longer term, while others gain from a concentration of attention. Also, we are becoming increasingly aware that the most suitable schedule for a full-time student living in the dormitory usually does not meet the needs of the commuting or employed student. The nature of the individual course, therefore, must be matched with the prospective students in determining the proper course design and schedule.
OF SUMMER SESSIONS

Returning now to the criteria to be used in reviewing innovative course designs, I believe the traditional rules should remain, but as points of departure rather than inflexible absolutes. Another criteria would be the nature of the departmental review given the proposal prior to it reaching your desk. An examination of the course outline and requirements, as well as the faculty member's reputation are also critical factors to be weighed.

These criteria, however, cannot guarantee the success of each new endeavor. A careful evaluation of each course at the end of each session should be a regular part of our annual cycle. How many of us conduct a complete review of quality of our courses at the end of each semester? I can recall Howard Knag, the Summer Session Dean at Queens College, asking this same question at a regional meeting in Williamsburg two years ago and the result was almost universal discomfort.

Typically, as the summer draws to a close, we take a few weeks, well-earned, vacation and when we return there seems only time to quickly pull together enrollment figures before we turn to departmental chairmen and faculty members to plan for the next summer.

Our information systems should have built into them the results of course evaluations by all students which could be reviewed alongside individual course enrollments, add-drop statistics and grade distributions. Where questions concerning course quality arose, inquiries could be directed to the individual faculty member and departmental chairmen. In the case of truly innovative courses and programs, the instructor should also complete an individual evaluation. This should be submitted to the dean and the departmental chairmen. Where an innovation has involved several faculty members, a post-course conference has proven helpful for us.

You might say that such a review process is too idealistic or ambitious. You might also say that the measurements possible would be fairly crude. Both are valid points. Nevertheless, improved course evaluations are necessary. I must confess that we at Georgetown have a long way to go to see that all of our summer courses and programs are adequately evaluated. While we formally evaluate our new summer sessions, all workshops, non-credit courses and overseas programs on a regular basis, the bulk of our over two hundred summer courses have not been scrutinized for several years. My reflections while preparing this talk have prompted me to review all courses in the coming summer.

It seems to me that the more we strive to be innovative, the greater becomes our responsibility to carefully evaluate our efforts. Likewise, my emphasis on reform and innovation is not meant to imply that the traditional ways of teaching and scheduling are wrong. Rather, I am saying that they should not be the only ways to structure learning opportunities. Samuel Gould, Chancellor Emeritus of the State University of New York and Chairman of the Carnegie Commission on Non-Traditional Study, stated it far better than I could when he said "In summary, I am saying that the traditionalist and non-traditionalist are not adversaries; that one
cannot supplant or supersede the other; and that they are partners in a single grand enterprise of promoting learning. The rigor and discipline of the traditional approach should commend it to the attention of the non-traditionalist; opportunities for individualistic and independent study, for flexible patterns and new techniques, or for lifelong enrichment are equally worthy of notice by the traditionalist."

When I began this discussion of our role as educational entrepreneurs in course and program planning, design and evaluation, I promised that I would return to an observation by Frank Newman concerning our special task in the future of higher education. In his 1971 Report on Higher Education, Professor Newman states that "For innovation to occur imaginative individuals must be attracted to careers in higher education and to the entrepreneurial task. Reform and even some innovations can be planned and managed from the command posts of the existing system — such as the new form of education and certification by external degree initiated by the New York Commissioner of Education; but most real innovation in higher education — as in other walks of life — will spring up from within and from below because some determined and imaginative individual has committed himself to a new idea."

This statement in a section of his report titled "Opportunities for Educational Entrepreneurs," clearly lays a challenge before us. It is a challenge that we as summer session administrators are used to meeting.

I would like to go beyond these prepared remarks and begin a dialogue on the topics just considered. To start things off, I would like to propose three initial questions.

1) What kinds of programs do you offer that highlight the institutional character and mission of your college or university?

2) What innovative courses or programs have you conducted recently and what criteria did you use to be certain of their academic quality?

3) Do you formally evaluate the educational effectiveness of your courses and programs, and if so, how do you do it?

Hopefully, you, too, will have questions that we can all discuss. Thank you.
The Continuing Education Unit — Is It Relevant to Summer Sessions

By Grover J. Andrews
Associate Executive Secretary, Commission on Colleges
Southern Association of Colleges and Schools

INTRODUCTION

Recent studies have revealed an ever increasing role for non-credit educational courses, programs, and activities in institutions of higher education — adult and continuing education and extension. The Johnstone study of the mid-sixties indicated that more than 25,000,000 individuals within the United States, exclusive of full-time regular students, are engaged in at least one continuing education program annually. The recent reports of the Carnegie Commission predict that non-credit adult and continuing education programs will become a major component of American higher education during the remainder of the seventies and into the eighties. Those institutions who recognize this fact and begin now to prepare for the adult student will find themselves in the main-stream of American post-secondary education. These institutions will not be as greatly affected by the declining birth rate and thus declining number of regular full-time students available to the college market. Institutions of higher education can continue to play a significant role in the American social development by providing relevant continuing education programs of quality for the professional agencies, business and industry, government, and the public in general. Thus the advent of the Continuing Education Unit.

The Early Beginning . . . The National Task Force

In July of 1968, a national planning conference was called in Washington, D. C. This conference was sponsored jointly by the National University Extension Association, the American Association of Collegiate Registrars and Admissions Officers, the U.S. Civil Service Commission, and the U.S. Office of Education. The purpose of this conference was to determine the level of interest in a uniform unit of measurement for non-credit continuing education. Thirty-four national organizations represented at the conference expressed an interest in one aspect or another of identifying, measuring and recognizing individual effort in continuing education.
The interest and sense of urgency for a concerted national movement expressed at this meeting resulted in the creation of a National Task Force to determine the feasibility of a uniform unit of measurement.

The impetus for a uniform unit of measure for continuing education developed as a result of a demonstrated need for an increase in knowledge and the resulting decrease in the utility of prior learning which individuals acquire during their years of formal education. This demand for retraining activities is reflected in the constant increase in participation in continuing education and also in the number of institutions and organizations offering programs of this kind.

At this same time several organizations and institutions either had initiated or were studying ways of measurement and awards for continuing education students each having little or no relationship to any other system in existence. It appeared that the development of a uniform nationally accepted unit would hold promise of reducing the confusion and fragmentation by arriving at a single suitable means of recognizing and rewarding individual effort in the pursuit of continuing education.

These needs, and others, have resulted in the establishment of the Continuing Education Unit.

THE CONTINUING EDUCATION UNIT IS DEFINED AS FOLLOWS: TEN CONTACT HOURS OF PARTICIPATION IN AN ORGANIZED CONTINUING EDUCATION EXPERIENCE UNDER RESPONSIBLE SPONSORSHIP, CAPABLE DIRECTION AND QUALIFIED INSTRUCTION.

Continuing education, for the purpose of this definition, includes all institutional and organizational learning experiences in organized formats that impart non-credit education. Continuing education may be applied equally under the proposed system regardless of the teaching-learning format, program duration, source of sponsorship, subject matter, level, audience or purpose.

The continuing education unit may be used for the measurement, recording, reporting, accumulation, transfer, and recognition of participation by adults in programs which in the past have not been recorded in any formal or systematic way.

The unit can be applied with equal facility to professional continuing education, vocational retraining, and adult liberal education as well as other programs in adult and continuing education.

The individual adult student should be able to accumulate, update, and transfer his record on continuing education throughout life in maintaining or increasing proficiency in his career or in making progress toward his personal educational goals. In the absence of such a universally recognized unit, the concept of education as a continuous process is often lost. This
lack of any cumulative record has often resulted in many continuing education programs being built upon narrowly defined educational objectives and the establishment of only short-termed goals which were usually institutionally oriented rather than student directed.

Thus, the purpose of the CEU is to provide a mechanism by which most continuing education activities can be recorded. It is not expected, on the other hand, that all of the participation in terms of continuing education units will have utility or transferability. There would appear to be definite institutional and other sponsor advantages in quantifying and recording the total amount of continuing education activity for which such organizations are responsible.

The key to the success and usefulness of the CEU will be found in its discriminating use. While the CEU itself is basically a quantifying mechanism, the administrative process with which it is implemented can and should provide the quality factors to make the CEU a meaningful measurement. Administrative guidelines for the CEU process have been established. It is stressed that the system of recording units of continuing education participants may be related to the current system of permanent records in use at the institution or a separate and parallel system can be designed and maintained. Reference is made again, however, to the elements found in the definition of the CEU, i.e., an organized continuing education experience; under responsible leadership; capable direction; and qualified instruction. It is further emphasized that the number of CEUs for each offering should be determined in advance through the regular channels of the administrative unit responsible for the implementation of and/or coordination of such non-credit activities and should be done in cooperation with the appropriate departments of the institution or organization.

In the statement of the National Task Force on the Continuing Education Unit the administrative requirements for establishing and maintaining the quality control over the assignment and awarding of the CEU are detailed as follows:

1. A specific high level individual within the continuing education operation of the institution should certify and approve the awarding of a specific number of Continuing Education Units for a program prior to the program offering.

2. The program director for each learning experience should be responsible for certifying that the program was attended and completed by individuals who request Units.

3. The institution is responsible for establishing and maintaining permanent records of Continuing Education Units awarded. The information to be recorded on each individual should include at least the following:

   A. The name of the student.
   B. Social Security Number of student.
C. Title of course.
D. Course description and comparative level.
E. Starting and ending dates of activity.
F. Format of program.
G. Number of Continuing Education Units awarded.

In addition it is suggested as highly desirable that the permanent records include:

A. Evaluation of each individual’s performance.
B. The name of the instructor and course director.
C. Personal information about the students: address, date of birth, educational background, employment, etc.
D. Any cooperating sponsors, company, associations, agencies, institutions, governments, etc.
E. Course classification, i.e., professional, liberal education, vocational technical, job entry, in-service, etc.

It was also stated by the Task Force that it would be helpful if all continuing education activities be clearly described in terms of audience, purpose, format, content, duration, teaching staff employed, course or experience pre-requisites, other qualifying requirements and levels of instruction so that intelligent judgments could be made if the transfer process of the CEU was instituted.

The College Commission of the Southern Association of Colleges and Schools

In 1968, at about the same time that the national task force for the CEU was being created, the Executive Council of the College Commission of the Southern Association of Colleges and Schools in recognition of the significant changes taking place in the areas of adult education, continuing education, and extension authorized a study for the purpose of revising its standards for accreditation of these areas within the institutions of higher education in the South.

The study was conducted over a two-year period gathering data from 560 colleges through a formal instrumentation process on the academic year 1969-1970. Informal information gathering took place through numerous meetings with institutional representatives—presidents, deans, faculty members, and deans and directors of continuing education and students. A new standard—Standard Nine—was developed as a result of the study and was adopted by vote of the College Delegate Assembly in December, 1971. One of the most significant provisions of the new standard is the use of the Continuing Education Unit—to give recognition to the adult and continuing education student; and to provide an accurate account of total institutional effort by
measuring the non-credit offerings of an institution in a form equal to the credit hour. The combining of these two units of measure will more clearly and accurately indicate the total educational effort of an institution.

The results of the Standard Nine and the CEU after nearly two years of use is very dramatic. The qualitative aspects of adult and continuing education within the institutions have been significantly improved. The opportunities for further improvements in these areas under the new standard are even greater.

Coordinated statewide plans for the use of the CEU have been developed in Georgia, Virginia, North Carolina, and Florida. Others are in stages of development in Kentucky and Texas. Hundreds of individual institutions are now in some stage of implementation of use of the CEU.

An ad hoc committee of institutional representatives worked for about a year to develop and field test specific guidelines for the use of the CEU within an institution of higher education. The criteria developed by this group and now in use within the Southern region for awarding individual continuing education units are as follows:

1. The non-credit activity is planned in response to an assessment of educational need for a specific target population.
2. There is a statement of objectives and rationale.
3. Content is selected and is organized in a sequential manner.
4. There is evidence of pre-planning which should include opportunity for input by a representative of the target group to be served, the faculty area having content expertise, and continuing education personnel.
5. The activity is of an instructional nature and is sponsored or approved by an academic or administrative unit of the institution best qualified to affect the quality of the program content and to approve the resource personnel utilized.
6. There is a provision for registration for individual participants and to provide data for institutional reporting.
7. Appropriate evaluation procedures are utilized and criteria are established for awarding CEU’s to individual students prior to the beginning of the activity. This may include the evaluation of student performance, instructional procedures, and course effectiveness.

The University System of Georgia was the first state to develop a coordinated plan for use of the CEU by all thirty institutions within the system—this includes junior colleges, senior colleges, universities, and a medical college. The Georgia plan has been in successful operation for 15 months now and this year for the first time ever received direct funding from the Legislature for public service based on the CEU.
The State of Virginia which was the second state to develop a coordinated plan took another approach. Under the leadership of the State Council for Higher Education a statewide consortium for continuing education was established by Legislative act. The legislation created six regional consortia and opened participation on a voluntary basis to the private colleges of the state. The CEU is a part of the state plan. North Carolina and Florida now have operational statewide CEU plans for their respective community college systems. As is evidenced of these examples, much CEU activity is currently going on in the Southern region.

The National Scene

Nationally, two very significant actions have taken place in recent months. First, the national task force for the CEU has moved to develop more definitive and a controlled use of the CEU by non-higher educational institutional users by developing more elaborate guidelines. These should be in print and available early in 1974. Second, and most important to the higher education—post secondary field the Federation of Regional Accrediting Commissions of Higher Education (FRACHE) has developed a working paper on the use of the CEU. This paper is currently being circulated by each of the regional commissions for reaction and information—with the ultimate goal of becoming a FRACHE policy statement.

Relevance of the CEU for the Summer School

What is the relevance of the CEU for the Summer School?

Traditionally the summer sessions have usually offered academic credit programs for the special and part-time student as well as for those regular full-time students who for various reasons wanted to shorten their college time span, make up work, or take additional courses without lengthening their "college life." The emphasis has been on the credit courses and programs. Non-credit courses and programs have been offered but have not played a major role as a rule.

There appears to be a nearly unlimited opportunity for the Summer School on the horizon in the non-credit area based on a national implementation of the Continuing Education Unit. Though the Summer Schools have been somewhat innovative in the past—at least with time shortened course arrangements and project-oriented classes—the CEU offers an even greater opportunity for an innovative approach to developing formal classes, courses, and programs and nontraditional modes of non-credit education. It is important to note here that this is possible in part because of the great flexibility of the CEU as a unit of measure.

With a consistent and uniform use of the CEU, it has the potential of becoming the primary unit for individual goal accomplishment, professional re-licensing, promotion, up-dating, teacher certification and so on. The
THIRD GENERAL SESSION
FRIDAY, NOVEMBER 9, 1973

Presiding—Harriet Darrow, President of NASS
Indiana State University

ANNUAL BUSINESS MEETING

The Annual Business meeting was held on Friday, November 9, 1973, at 9:15 in the Georgian Room of the Statler Hilton, Boston, Massachusetts, with President Darrow presiding.

President Darrow reported that the Executive Committee had discussed:

(a) the present responsibilities of the position of secretary and had approved increasing the responsibilities of the position. It also voted an increase in the budget for the secretary;

(b) the request from the American Summer Sessions Senate for support to fund The First Annual National Institute in Summer Term Administration, scheduled at Arizona State. After considerable discussion, the Executive Committee approved $3,000.00 for the support of the Institute with the understanding that a report on the Institute would be mailed to NASS members;

(c) the activities of the regional vice presidents and approved a budget of $500.00 for each regional vice president.

An interim Membership Committee report was given by Chairman Manning who stated the final report would be published in the Proceedings. It was moved, seconded and so voted to receive the interim report.

Secretary Manning moved that the minutes of the November 16, 1972 Annual Business meeting be approved as published in the Proceedings of the Ninth Annual Conference which had been distributed to all members, institutional and individual, in March, 1973. The motion was seconded and so voted.

Treasurer O'Connor gave his report on receipts and disbursements for the period November 1, 1972 to October 31, 1973. It was moved, seconded and voted to receive the treasurer's report and place it on file.

Chairman Marjorie Johansen read the report of the Auditing Committee. It was moved, seconded and voted to receive the report and place it on file.

Chairman Green read the report of the Conference Site Committee and moved it be accepted. The motion was seconded and voted.
Government Relations Committee report was distributed by its chairman, Joseph Pettit. It was moved, seconded and voted to receive the report and place it on file.

Leslie Coyne reported for the Research Committee. It was moved, seconded and voted to receive the report and place it on file.

Clodus Smith reported on the Futurology Committee. It was moved, seconded and voted to receive the report and place it on file.

President Darrow called for the report of the Nominating Committee. Chairman Noyes submitted the following slate of officers for 1974:

President, John Mapp, Virginia Commonwealth University
President-Elect, N. Lee Dunham, Baylor University
Secretary, Stuart H. Manning, The University of Connecticut
Treasurer, Lloyd R. O'Connor, California State University at San Francisco

It was moved, seconded and voted that the slate of officers presented be elected to office.

President Darrow briefly reviewed the year activities of the Association, expressed appreciation for the assistance given her by the officers and members of the Association and then passed the gavel to incoming President Mapp.

President Mapp called for the report of the Resolutions Committee. Mary Ludwig, chairman, read the report. Discussion followed.

It was suggested that an Ad Hoc Committee of interested members carry out Resolution A.

It was suggested that the Ad Hoc Committee referred to in Resolution C possibly visit institutions submitting for the award.

Unanimous approval was expressed for Resolutions D and E.

It was moved, seconded and voted to accept the report and place it on file.

The meeting adjourned at 10:25 a.m.

Respectfully submitted,
Stuart H. Manning, Secretary
MEMBERSHIP COMMITTEE REPORT

The Membership Committee conducted its business by mail during the 1973-74 membership year.

Each member of the committee was supplied membership application forms and was requested to write Directors of Summer Sessions within their region whose institution did not hold membership and enclose a membership application.

I am pleased to report that the membership for 1973-74 (dues paid prior to annual business meeting, November 9, 1973) was:

352 institutional members
13 individual members

365 total

The membership for the previous year, 1972-73 was:

339 institutional members
7 individual members

346 total

STUART H. MANNING Chairman

Regional Vice Presidents:
NORMAN WATT, Northwestern
JAMES H. FRIBOURGH, Southwestern
DENIS KIGIN, Western
NANCY ABRAHAM, East Central
ANNE SCHEERER, West Central
EDWARD OVERTON, Middle States
GEORGE COLE, New England
W. A. BROTHRITON, Southeastern
### NATIONAL ASSOCIATION OF SUMMER SESSIONS

#### Statement of Receipts and Disbursements

For the Period November 1, 1972 to October 31, 1973

**Cash Balance, November 1, 1972**

$6,843.48

Lloyd R. O'Connor, Treasurer
Executive Board
National Association of Summer Sessions
c/o Office of the Summer Sessions
San Francisco State University
San Francisco, California 94132

Gentlemen:

I have examined the STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS of the NATIONAL ASSOCIATION OF SUMMER SESSION for the period November 1, 1972 to October 31, 1973. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as I consider necessary in the circumstances.

In my opinion, the accompanying statement presents fairly the cash receipts and disbursements of the NATIONAL ASSOCIATION OF SUMMER SESSIONS for the period November 1, 1972 to October 31, 1973.

Ross L. Arrington
Certified Public Accountant
AUDITING COMMITTEE REPORT

The Auditing Committee examined and accepted the statement of receipts and disbursements submitted by Lloyd O'Connor, Treasurer. This statement audited by Ross L. Arrington, C.P.A. covers the period beginning November 1, 1972 to October 31, 1973.

The Committee is deeply disturbed at the sizable total assets of the Association ($23,104.87), an organization dedicated to non-profit programs.

The Committee wishes to point out that in 1972 it charged the Executive Committee with developing a long range financial plan for this Association. It is the very strong recommendation that programs be now initiated which will constructively utilize the latent resources available.

Once again, I wish to thank my hard working committee members for the time and creative thinking that have dictated the above recommendations.

MARJORIE B. JOHANSEN, Chairmen
DALE ALLERTON
JAMES BLACKHURST
CHARLES W. COLE
DONNA LOU HARDINGHAM
JOHN SHISLER
CONFERENCE SITE COMMITTEE REPORT

1. The Site Committee wishes to affirm the decisions made by the National Association of Summer Sessions at the business meeting held in St. Louis in 1972. These decisions are:

   a. That the 1974 convention be held at the Raddison Hotel in Minneapolis on October 21, 22 and 23, 1974 (instead of October 7, 8 and 9 as originally planned) and that the University of Minnesota be our host institution.

   b. That the 1975 convention be held in the Tempe-Phoenix area on November 12, 13 and 14, 1975 and that Arizona State University be our host institution.

2. The Site Committee recommends and moves that the 1976 convention be held in Williamsburg, Virginia on November 1, 2 and 3, 1976, and that the host institution be the Virginia Colleges and Universities in that area with Virginia Commonwealth University acting as coordinator.

GOVERNMENT RELATIONS COMMITTEE REPORT

Federal Assistance to Higher Education Available to Summer Schools and Summer Sessions

Introduction

This report is prepared as a quick guide to possible Federal assistance available to Summer Sessions. It should serve only as a review of possible Federal assistance and a jumping off point for further inquiry by Deans and Directors. It includes programs supporting courses, conferences, institutes and projects that are either specifically designed for summer or that could be conducted in the summer. It also includes Stipends, Fellowships, and Research Programs (where appropriate) to assist summer session deans and directors, 1. in locating funding for summer seminars, or research programs for recipients of such grants, or 2. in locating funding for individual faculty.

Programs for which applications are not being accepted or funding is not available are generally not included. Please note carefully whether the funds are a budget request, appropriated funds or obligated funds. Note also those programs which if revenue sharing is adopted could be covered.

Caveat

Be sure to get a fuller explanation of programs and update its deadlines and funding before even considering proposal preparation or rejection of the same. From the time this report was started to its typing programs were cancelled and deadlines were extended.

Further Information

Programs included in the main body of this report list whom should be contacted. For a more extensive overview (without contacting each agency) see The Guide to Federal Assistance for Education, Robert E. Horn. Meredith Corporation/Educational Division, Appleton - Century - Crofts, 440 Park Avenue South, New York, New York 10016.

For highlights on Federal programs see Federal Relations Advisory Service (FRAS) News Notes, Association of American Colleges, 1818 “R” Street, N.W., Washington, D.C. 20009.

For more extensive information see the program announcements of the National Endowment for the Humanities (NEH), the National Science Foundation (NSF) and the like.

*The President's FY '74 budget request includes $2,257,000 for educational revenue sharing and $1,164,000 for manpower revenue sharing which, if adopted, could cover programs marked with an asterisk (*). Information taken from The Guide to Federal Assistance for Education, Robert E. Horn, c 1972, Meridith Corporation. For more complete information and periodical updating of programs and availability of Federal Funds, see The Guide.
NASS SURVEY REPORT

During the spring and summer of 1973, NASS conducted a survey of institutions of higher education. The purpose of the survey was twofold — first to compile data about summer sessions in higher education, and second, to promote membership in the association. All institutions of higher education listed in the Educational Directory of the U.S. Office of Education were sent information describing NASS and were asked to fill out and return a card with a few brief questions. The questions asked, 1) if the institution offers summer sessions, 2) is the institution public or private, 3) what type of institution it is (two year college, four year college or university), and 4) what type of accreditation it has. The results:

Number of Institutions Listed 2,686
- NASS Members - 355
Number of Institutions Surveyed 2,331
Number of Responses 1,726 (74%)

**Question 1 — Offering Summer Sessions**

YES 1,517 (88% of those responding)
NO 209 (12%)

**Question 2 — Sponsorship** 1,489 responses

Public 769 (52%)
Private 720 (48%)

**Question 3 — Type of Institution** 1,517 responses

2 Yr. Colleges 614 (40%)
4 Yr. Colleges 627 (41%)
Universities 229 (15%)
Other 47 (3%) (Professional schools, etc.)

**Question 4 — Accreditation** 1,405 responses

accredited by a regional or professional assn. 1,375 (98%)
provisionally accredited 16 (1%)
recognized candidate for accreditation 100 (7%)
none of the above 14 (1%)
It is useful to compare these statistics with similar information about all institutions and the current NASS membership. Especially interesting is the great difference between the percentage of two year colleges in NASS and the percentage of such schools nationally.

\(^1\) Respondents offering summer sessions.

\(^2\) The source for the national figures is the Educational Directory of the U.S. Office of Education. For these purposes "university" means any institution granting a master's degree or any higher degree. Professional schools, medical schools, seminaries, etc., are included in this figure.

All of the institutions surveyed were invited to become members of NASS and the cards they returned will be passed on to the regional vice presidents to aid in gaining new members.

Joseph Pettit, Newsletter Editor
RESEARCH COMMITTEE REPORT

The NASS Research Committee initially chaired by James Blackhurst reviewed four proposals which were submitted for its consideration this past year. The Committee favorably reviewed and passed on to the Executive Committee three proposals which were subsequently funded. They were:

1. A proposal from Joe Pettit, Georgetown, to survey 2,686 institutions of higher education and to compile limited data about summer sessions and, secondly, to promote membership in the Association.

2. A proposal submitted by Clay Schoenfeld, University of Wisconsin—Madison, titled "The Summer School Rationale in the School of Education." The study sought to determine the rationale by which provisions are made for instruction and institutional service to be performed during the summer at the University of Wisconsin-Madison in the School of Education.

3. Lastly, a proposal from Alan Seagren, University of Nebraska—Lincoln, seeking support for an in-depth study of the issues and questions to the implementation of a three-week pre-session. The study is titled "Three-Week Pre-Session."

The results of the Pettit survey are available to the membership at the registration desk. The Schoenfeld and Seagren studies are to be mailed to the membership shortly.

A brief summary of the statistics is available at the registration table and will be published in the proceedings of this meeting.

By a recent act of the Executive Committee the Research Committee has been empowered with the authority to directly approve research proposals involving funding up to $1,000. Proposals for support above $1,000 will be reviewed and passed on with recommendation to the Executive Committee for final approval. The Research Committee has an annual budget of $5,000.

In closing, the incumbent Research Committee wishes to submit recommendations regarding policy and procedure to the Executive Committee for the future development and implementation of research supported by this Association.

The Committee recommends the development of a research plan which would lend a clearer mission orientation to the Association’s research involvements. The findings of the special Futurology Committee might serve as a valuable reference in this regard.

The Committee further recommends that guidelines be established which would delineate the Association’s prerogative in matters of supported research. Such guidelines would facilitate the solicitation, transmittal and evaluation of such research proposals.

REPORT OF THE FUTUROLOGY COMMITTEE

I. STAFF

The National Association of Summer Sessions has grown to such size and complexity that the details of its administration have become a heavy burden for officers whose duties are added to those of full-time academic employment. The services asked of the Association are increasing, and there are additional services which, because of its size and organizational structure, it is uniquely able to fulfill but currently is not staffed to carry out.

To reach its full potential of service to members, the Association should empower the Executive Committee to employ a salaried professional person to carry on its day-to-day activities. He should have a title such as Executive Director; significant, although carefully defined, delegated authority from the Executive Committee; and adequate clerical assistance. Looking toward this future status, the Association should fund immediately a position for a competent administrative assistance to its present secretary; and at an early date it should fund, at least on a part-time basis, the position of Executive Director.

The Executive Director would in effect operate a central office for the National Association of Summer Sessions. His duties would include maintaining close contact with and carrying out the directives of the Executive Committee; assisting with and coordinating the activities of the Reginal Vice Presidents; oversee a continuing campaign for the recruitment of new members; maintaining central files; setting up a data bank of research information; developing an Association library; serving as a clearing house of information important to summer session administrators; publishing the annual Proceedings; assisting the editor with the preparation of the Newsletter; representing NASS to other academic and governmental organizations, and providing a means of communication between them and NASS members; and in general lessening the disadvantages, while enhancing the advantages, of an organizational structure whose executive authority is loosely divided among officers scattered over the entire nation and meeting only twice a year.

The Executive Director would also be a member of the Executive Committee and the Administrative Council as an ex-officio member without vote.

II. INTERASSOCIATION RELATIONS

It is recommended that NASS establish close coordination between the NASS regional groups and independent organizations such as the North Central Conference of Summer Sessions and WASSA, placing special emphasis on joint meetings.
III. ANNUAL MEETINGS

Concurrent sessions should be problem oriented rather than size and nature oriented. Problem-related topics should be identified in advance and individuals and panelists who are to appear on the program should be prepared to present positions and to discuss the topic. Several sample problem areas were given (not in order of priority):

A. Non-educational or non-institutional ways to utilize physical facilities in the summer.
B. Program development for federal funding.
C. Promotional campaigns for marketing summer sessions programs.
D. Innovative structures and schedules for conducting summer learning sessions.
E. Case study or simulation sessions on summer session administrative problems.

The President-Elect should conduct a survey by mail immediately following the annual meeting at which he/she was appointed requesting program suggestions from members for the following annual meeting.

The dates of the annual meeting should be moved closer to a weekend and conclude on Friday morning rather than on Thursday morning.

Discussion was given to location of annual meetings. While no conclusion was reached by the Committee or a recommendation made by it, dissatisfaction was expressed with sites which were not centrally located and with sites in the colder regions.

IV. PUBLICATIONS

The Association should prepare a bibliography of articles, research studies and reports related to summer sessions.

The Association should arrange for the preparation of position papers on selected topics. It is suggested that an Ad Hoc Committee be appointed to select topics and authors. The position papers would be presented to the Annual Conference, and subsequently published, and circulated to members. Papers could be made available for publication in journals and magazines serving higher education. Also, reprints and copies could be made available to Presidents and Chancellors who head institutions experiencing problems related to the subject matter of the paper.

A handbook for new summer session deans and directors should be prepared and made available on request. The handbook would include the bibliography and position papers and other appropriate information useful to deans and directors who begin their tenure in summer program administration. The Committee views this as a valuable service activity of the Association having an outstanding potential.
V. RESEARCH

The Association should continue its high priority on research activities by member institutions.

The practice of supporting research activities that have value to summer programs should be continued.

The Research Committee should consider ways and means to stimulate additional research and study efforts. Consideration could be given to the support of a graduate assistant(s), internship(s) and the establishment of a summer session “data bank.”

VI. GOVERNMENTAL AFFAIRS

It is recommended that the Governmental Affairs Committee be abolished and one person designated to prepare information on federal programs. This activity could become the responsibility of the part-time staff.

VII. REGIONAL CONSULTING TEAMS

As a service of NASS to institutions that experience special summer session problems, a strategy for the development of consulting teams comprised of deans and directors should be developed. It is suggested that members would be appointed by NASS and serve on a voluntary basis. Travel expenses for consultants selected to serve on teams would be normally supported by the requesting institutions. Coordination would be provided by the Association.

VIII. EXECUTIVE COMMITTEE

It is recommended that the Vice President of the region in which the Annual Summer Sessions Conference is to be located attend planning session(s) of the Executive Committee for the year preceding the annual meeting. The expenses of the Regional Vice President for attending the planning session(s) should be supported by the Association.

IX. REGIONAL ORGANIZATIONS

The regional organization (structure, boundaries, etc.), should be reviewed.

The Association should strengthen regional organizations by providing additional support.

A “program of work” should be developed by the regional organization. This program of work should include the responsibilities of the Regional Vice Presidents, conference planning procedures, regional conference plans, etc.
Regional organizations should be encouraged and provided with appropriate support (promotional materials, leadership and financial resources), for the recruitment of new members of the regional organization.

CLODUS SMITH, Chairman
J. NIEL ARMSTRONG
CHARLES NOYES
CHARLES ORR
JOSEPH PETIT
DAVID W. WUERTHELE, JR.

NOMINATING COMMITTEE REPORT

The Nominating Committee met on Wednesday, November 7, 1973, to select a slate of officers for 1974. The Nominating Committee is pleased to present the following slate:

PRESIDENT: John Mapp, Virginia Commonwealth University, Richmond, Virginia

PRESIDENT-ELECT: N. Lee Dunham, Baylor University, Waco, Texas

SECRETARY: Stuart H. Manning, University of Connecticut, Storrs, Connecticut

TREASURER: Lloyd R. O'Connor, California State University, San Francisco, California

CHARLES NOYES, Chairman
JAMES BLACKHURST
GEORGE COLE
MILTON HARDIMAN
ANNIE SCHEERER
NORMAN WATT
RESOLUTIONS COMMITTEE

Cognizant of a mandate from last year’s Resolutions Committee and of an obligation to serve the NASS membership, we herewith ask:

A. That it be resolved that the NASS Executive Committee authorize and release funds to the Research Committee for a person or persons to analyze and put together: (1) Standardized course evaluation techniques which may be modified and adopted to individual summer sessions. (2) For a person or persons to conduct research and come up with uniform guidelines for “evaluating” life and work experiences for the purpose of possibly awarding credit at an individual summer session.

B. Be it also resolved that through lobbying and other appropriate means, we make sure that the summer session is recognized as relevant to future governmental and foundation studies on higher education and inclusion in their funding allocations.

C. Be it further resolved that we encourage effective innovation in the summer session through the creation and financial support of an ad hoc Awards Committee which would receive and evaluate all offerings submitted for this award and present an annual award of a plaque or trophy to the institution submitting the “Creative and Innovative Summer Session Offering.”

D. In the NASS tradition of expressions of gratitude, be it resolved that NASS thank the host institution, Boston College, and especially commend Father George Fuir and his excellent staff for outstanding hospitality and efficient arrangements for the 1973 meeting.

E. Be it finally resolved that the National Association of Summer Sessions thank Harriet Darrow for dynamic, enthusiastic, charming and effective leadership during the past year. Be it also resolved the President-Elect John Mapp and his committee be commended for the excellent quality of the programs for the 1973 meeting.

MARY LUDWIG, Chairman
WILLIAM SMALL
GEORGE WILLIAMS
Appendix I

CONSTITUTION AND BYLAWS

of the

NATIONAL ASSOCIATION OF SUMMER SESSIONS

ARTICLE I—Name
The name of this Association shall be The National Association of Summer Sessions.

ARTICLE II—Purpose
The purpose of the organization shall be the development of summer session standards and programs. All activities of the Association shall be exclusively for educational purposes within the meaning of section 501 (c) (3) of the Internal Revenue Code of 1954.

ARTICLE III—Membership
Section 1. Membership in the Association shall be institutional and individual.

a) Institutional voting membership shall be open to colleges and universities having summer programs and which maintain accreditation by one of the regional associations accrediting institutions of higher learning. Colleges and universities outside the United States may become institutional members by a majority vote at the annual meeting.

b) Individual non-voting membership shall be open to those who are not affiliated with an institution eligible for institutional membership but who have a professional interest in the purpose of the Association.

Section 2. Annual dues assessed to institutions and individuals shall be established by vote of the membership upon recommendation of the Administrative Council.

Section 3. New members shall be admitted in accordance with the procedure outline in the Bylaws.

Section 4. At its first annual meeting the membership of the organization shall be constituted of those institutions submitting declaration of an intention to fulfill the spirit of Article II of this Constitution, and payment of dues as established at the organization meeting to a problem Executive Committee approved at the organization meeting at Washington, D.C., April 27-28, 1964.

ARTICLE IV—Representation
Section 1. Each member institution shall receive one vote on any question before the Association.

Section 2. Although each institution may send as many delegates to the annual meeting as it deems consistent with the purpose of the Association, each institution shall be officially represented by the person responsible for the Summer Session program, or his designee.
ARTICLE V—Administrative Organization

Section 1. The Administrative Council is the governing body of the Association and shall consist of:

a) The officers of the Association: President, President-elect, Secretary, and Treasurer.

b) One Vice President from each of the geographical areas designated as Association regions in the Bylaws.

c) The immediate past President.

d) The President, immediate past President, President-elect, Secretary and treasurer shall constitute the Executive Committee of the Administrative Council.

Section 2. The Executive Committee is authorized to conduct the business of the organization between annual meetings. It shall fill ad interim vacancies in the organization.

Section 3. Upon dissolution of the Association, the Council shall provide for the payment of all debts of the Association, then shall dispose of all remaining assets in a manner consistent with the purposes of an exempt organization within the meaning of section 501(c)(3) of the Internal Revenue Code of 1954.

ARTICLE VI—Meetings

Section 1. At least one meeting of the Association shall be held in each calendar year as determined by the Executive Committee. Ordinarily this meeting shall be held in conjunction with the Annual Conference of the Association.

Section 2. Special meetings of the Association may be called by the Executive Committee providing that six-weeks' notice is given to each member institution.

ARTICLE VII—Amendments

Section 1. Amendments may be voted on at any annual meeting provided they are:

a) submitted to the Administrative Council in writing at least sixty (60) days before the annual meeting.

b) recommended by the Administrative Council for adoption at the annual meeting and circulated by the Council to the membership at least fifteen (15) days before the annual meeting.

Section 2. Amendments to this Constitution may be offered to the Association at any annual meeting. If accepted for action by majority vote of those in attendance, the amendments shall be voted on at the next annual meeting.

Section 3. Adoption of amendments shall be by a two-thirds affirmative vote of the members in attendance at the annual meeting.

ARTICLE VIII—Bylaws

Bylaws may be enacted or amended at any regular meeting of the Association by a majority vote of member institutions in attendance at the meeting.
ARTICLE I
In all matters not covered by its Constitution and Bylaws, this Association shall be guided by Robert Rules of Order Revised.

ARTICLE II—New Members

Section 1. Any college or university seeking membership in the National Association of Summer Session shall apply in writing to the Secretary of the Association.

Section 2. The following criteria shall determine eligibility for membership:

a) Accreditation by one of the regional associations accrediting institutions of higher learning.

b) Article III, Section 1 of the Constitution establishes criteria by which institutions of higher learning outside of the United States may become members.

c) Only non-profit institutions shall be accepted for membership.

Section 3. New members who meet the criteria referred to in Section 2 shall be accepted as members.

ARTICLE III—Dues

Section 1. The annual institutional dues shall be $25.00 or as designated by the Administrative Council. Individual members' dues shall be $10.00. Payment of institutional dues shall establish voting eligibility at the annual meeting.

Section 2. Failure to pay annual dues prior to the opening of the annual business meeting shall result in removal of the institution from membership.

ARTICLE IV—Powers and Duties of Officers

Section 1. The President, or in his absence the President-elect, shall preside at all meetings of the Association and the Administrative Council and the Executive Committee. In addition, the President shall perform the duties customarily associated with the office of the President.

Section 2. The President-elect shall be the Annual Conference Program chairman.

Section 3. The Secretary shall keep minutes of all regular and special meetings of the Association and the Administrative Council and Executive Committee.

Section 4. The Treasurer shall collect the annual dues of the Association, receive monies, make disbursements in the name of the Association, be bonded and maintain an official membership roster.
Section 5. The Administrative Council, by a two-thirds vote of its membership, may authorize the Executive Committee to act in the name of the Council. Such authorization may be rescinded by a majority vote of the Council membership.

ARTICLE V—Regions

The following geographical regions are established for the purpose of providing regional representation on the Council and for such other purposes as may prove convenient.

NORTHWESTERN
Alaska, Idaho, Montana, Oregon, Washington, Wyoming

SOUTHWESTERN
Arkansas, Oklahoma, New Mexico, Texas, Missouri

WESTERN
Arizona, California, Colorado, Guam, Hawaii, Nevada, Utah

EAST CENTRAL
Illinois, Indiana, Kentucky, Michigan, Ohio, West Virginia, Wisconsin

MIDDLE STATES
Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Virginia

NEW ENGLAND
Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont

SOUTHEASTERN
Alabama, Canal Zone, Florida, Georgia, Louisiana, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virgin Islands

ARTICLE VI—Elections and Appointments

Section 1. The President shall appoint a nominating committee made up of one and not more than two members from each region. This committee shall nominate candidates for President, President-elect, Secretary, and Treasurer at the annual meeting.

Section 2. Officers shall be elected by majority vote of the members at the annual business meeting.

Section 3. Regional Vice Presidents
The Executive Committee is empowered to provide for regional representation on the Administrative Council.

Section 4. Administrative Council members shall hold office for one year.

Section 5. No member of the Administrative Council, except the Secretary and Treasurer, shall serve more than two consecutive terms in the same capacity. Ad interim and pro tem appointments shall not apply.

Section 6. Standing and ad hoc committees shall be appointed by the President with the approval of the Executive Committee.

ARTICLE VII—Quorum
A quorum shall consist of thirty percent of the member institutions represented at the annual meeting.
NATIONAL ASSOCIATION OF SUMMER SESSIONS

Tenth Annual Meeting

Participants

1. Nancy Abraham
   University of Wisconsin—Madison
2. Dale Allerton
   University of Pittsburgh
3. J. Niel Armstrong
   North Carolina A & T State University
4. Vivian M. Barfield
   Colorado Women’s College
5. Frank Barros
   American University
6. Leo Barrows
   Saint Peter’s College
7. Donald Becker
   Lenoir Community College
8. Melvin Berstein
   University of Maryland
9. Andrew B. Bond
   Tennessee State University
10. Paul M. Bradley
    California State University—San Jose
11. David T. Brigham
    Bentley College
12. Arthur Brissette
    Sacred Heart University
13. William Brotherton
    Memphis State University
14. Charles Buckley
    University of Scranton
15. John B. Burks
    Jersey City State College
16. Paul Busch
    Trinity University
17. John Bushey
    University of Vermont
18. Lewis Butler
    Alfred University
19. Charles R. Campbell
    Spring Arbor College
20. Jeanette P. Christian
    Virginia Commonwealth University
21. Larry Clark
    University of Missouri—Columbia
22. Marvin Clark
    Rensselaer Polytechnic Institute
23. George O. Cole
    Southern Connecticut State College
24. Charles W. Cole
    George Washington University
25. Les Coyne
    Indiana University
26. Thomas E. Crooks
    Harvard University
27. Joseph S. Culotta
    Community College of Baltimore
28. Richard Danworth
    University of Nevada—Reno
29. Harriet Darrow
    Indiana State University
30. Willard Deal, Jr.
    Appalachian State University
31. Everette L. Duke
    Norfolk State College
32. N. Lee Dunham
    Baylor University
33. John Edwards
    Arizona State University
34. Willard Edwards
    California State University—Northridge
35. Stephen Eich
    C. W. Post Center of Long Island University
36. Elizabeth Eisemeier
    Yale University
37. Seth H. Ellis
    University of North Carolina—Charlotte
38. William Emerson
    Lenoir Community College
39. Rozanne Epps
    Virginia Commonwealth University
40. Wallace Ewing
    Colby College—New Hampshire
41. John H. FixI
    King’s College
42. Kenneth R. Fredgren
    Georgetown University
43. James H. Fribourgh
University of Arkansas—Little Rock

44. Rev. George R. Fuir, S. J.
Boston College

45. Thomas Fulcher
Lenoir Community College

46. Will Gartman
Davis and Elkins College

47. John Gilheaney
Catholic University

48. J. Daniel Giovannini
Saint Norbert College

49. James P. Glispin
University of Detroit

50. Gloria C. Goore
Winston-Salem State University

51. Robert C. Gould
Babson College

52. Max Graeber
University of Richmond

53. Claud B. Green
Clemson University

54. Ernest Greenburg
New Hampshire College

55. James Griffin
Hampton Institute

56. Robert Griffin
Fairfield University

57. Larry Grothaus
Concordia Teachers College

58. Hazel W. Harris
Furman University

59. Robert Hasenstab
Mercy College of Detroit

60. Vernon H. Head
Spring Hill College

61. Margaret Higgins
College of Mount Saint Vincent

62. Doris Hoffman
Macalester College

63. J. Clifford Holmes
George Williams College

64. R. T. Holmes, Jr.
Virginia Commonwealth University

65. David E. Hooten
Rochester Institute of Technology

66. Glen Jesse
Drake University

67. Marjorie Johansen
University of California—Los Angeles

68. Graham Johnson
Howard University

69. Harry A. Johnson
Virginia State College

70. William C. Johnston
George Mason University

71. James J. Kafka
University of Minnesota—Duluth

72. S. Kathleen Kalinoski
College of Saint Benedict

73. Russell Keeling
Southwest Missouri State University

74. John M. Keleher
State University of New York—Albany

75. Sr. Anna Mary Kelly
Regis College

76. Howard A. Knag
Queens College of the City University of New York

77. Alfred C. Koester
Valparaiso University

78. Charles F. Kolb
North Carolina State University

79. Leonard E. Kraft
North Adams State College

80. Karl Kredatus
Trenton State College

81. Thomas A. Kurowski
Rutgers University

82. Charles W. Lafferty
University of Alaska

83. Raymond J. Langley
Manhattanville College

84. Raymond LaRocque
State University of New York—Plattsburgh

85. C. Robert Larson
Wartburg College

86. Kenneth L. Laws
Dickinson College

87. Jean Leppaluoto
University of Massachusetts

88. A. Paul Levack
Fordham University

89. O. E. Lovell
Nicholls State University

90. Mary K. Ludwig
University of Southern California

91. Pauline A. Lyon
University of Washington—Seattle
92. Roger S. McCannon
Drake University
93. Bruce McCart
Augustana College
94. Paul McKee
Bowling Green State University
95. John McLaughry
Brown University
96. Thomas McLeRoy
University of Wisconsin—Whitewater
