

**NAASS Member:** Western Carolina University

**Initiative Title:** Shift to Digital Authorizations

**Award Category:** Administrative Hack

**Description:**

Amid COVID-19, the (summer) show had to continue. At WCU, all summer contracts have been executed in hardcopy. HR, Legal, and the Office of Summer Session had to implement a short-term plan for digital handling of faculty contracts. This need led to the development of university-wide policy concerning digital signature and authorizations.
