

**NAASS Member:** Western Carolina University

**Initiative Title:** Nursing Residency Pivots Standard Training to Assist During Pandemic

**Award Category:** COVID Challenges & Solutions

**Description:**

Nursing students had a taste of real medical work during the summer session due to COVID-19. Unable to safely complete clinicals as they have been done historically, nursing students donned extra PPE and with only slight modifications, managed a real medical crisis amidst their standard training protocols and assignments. <https://www.wcu.edu/stories/posts/nursing-residency.aspx>
